Lumeah Concertina

■ The Lumeah Concertina is a great way to take full advantage of Lumeah Acoustic Panels. Noise absorbing panels are connected with flexible straps to form a lightweight, portable partition solution. No assembly is required, just stand it up and adjust the angles to suit. When it's no longer needed simply fold flat and store it away. Concertina – an all in one sound absorbing, great looking, partitioning solution!

INSPIRE

Born in Australia, a place famous for its natural wonders and wide open spaces - we grew up surrounded by impressive settings. We dream of a world where every environment is impressive to everyone.

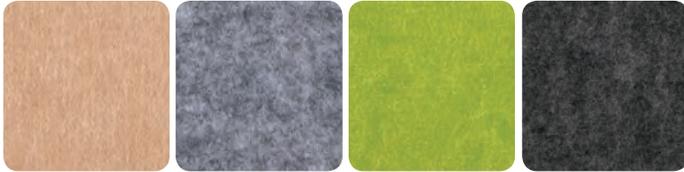

VALUE

No matter who you are or what you do, Lumeah offers beautifully imagined, off-the-shelf interior design products that are easy to install, at an outstanding value and flawless quality.

INNOVATE

Our products foster your imagination. Whether it's the beautiful design that inspires you or your ability to think more innovatively when using them - Lumeah creates design that inspires.
